With the amendments which will be passed at the present session, perfecting these statutes, and reconciling the really very few discrepancies which exist in them, Indiana will have a code of laws equal, in justice, simplicity, and practical utility, to that of any government in the world, and highly creditable to the legisla tors and people of the state.

To About two o'clock on Sunday morning, in Eckert's Saddlery Shep, on Washington street, a disgraceful fracas occurred between Clinton Brown, Lewis Merritt, and Edward Wilson, which resulted in Merritt being dangerously stabbed. He is wounded in seven or eight places -one of the wounds being immediately below the heart. It is thought he will recover, though he is suffering severely. In the melee Brown inflicted a severe would on his hand, and is confined to his bed in consequence. The preliminary examination of several witnesses before the Mayor on Yesterday gave evidence that the whole affair, and especially the cause of it, is not very creditable to the parties concerned.

1 100 WATCHES.—The above number of Watche were repaired in our establishment last year. This year, judging from the present appearances, we shall increase the number to at least 1500. Strangers might probably wonder why it is we get so much work to do when there are so many watch makers in our city. I will explain: In the first place we have the finest and most complete set of Watch Tools, the largest and best selected stock of materials, and the best workmen in this or any other city. selected stock of materials, and the best workmen in this or any other city or viltase in the State. Mr. Michot. my present workman, is a gentleman and scholar, as my neighbor watch makers can testify, a man who has learned his trade, and who can do more work in less time, and do it better, than any person pretending to be a watch maker in this city. So come on with your wateres of every description from a Chronometer to a "Buil Eye," and have them repaired as they should be. Don't forget the place, No. 1 Palmer House.

WASHINGTON, Feb. 19. The President trans tary of State, in which he says recent con ave been made to this department by the British min ster relative so the inter-oceanic canal by the Nicara gua route. The British Government has trans to the State department the fact that the company which contracted to build this canal having found it im possible to carry out the originat plan, has resolved to propose to Nicaragua a modification of the plan with a view to build a smaller canal, and the British minister has been instructed to intimate that, if such is the case, her Majesty's Government would feel at liberty; under the treaty of April 19, 1850, to withdraw its protection from that company, and transfer it to any other company which should undertake a canal on the origi-

It being deemed of the utmost importance by the British Government that the great conception of an inter-oceanic canal, adapted to the accommodation of vessels of the whole commercial world, should not dwindie down to an ordinary transit for coasting vessels, which, to distant nations, would be cemparatively of little value

The British minister has also been instructed to signify to the department that since Great Britian first as umed the protection and defence of the Mosquito Indine the position of all parties has changed. Spain, intead of exercising absolute sovereignty over Central America and prohibiting all commerce on the coest under her sway, has entirely lost her dominion over all parts of this continent. In consequence of these changes the British Government proposes that San Juan del Norte or Greytown should be a free and independent port; that the indemnification or advantages equivalent to those laid down in the treaty of 30th April, 1852. should be assured to the Mosquito Kingdon in return for its withdrawal from its present position in reference to San Juan; that the United States and Great Britain without formally guaranteeing San Juan del Norte, be ready to act in concert to defend the independence of a free port or city in whatever quarter it may be attucked

For these purposes the British Government propose to despatch some person qualified to treat with the au thorities of that city, and in case the United States concur in these views, the British Government would rechammend that a new convention in place of the unaccepted agreement of April, 1850, should be propos and concluded, and that a person well qualified be sent by this government to act with one from her Majesty. Referred to committee.

Ware-House No. 19 Front street, bet. Main and Walnut. We manufacture a Cob Breaker of great strength and durability

We manufacture a Co's Breaker of great strength and durability and ease of operation.

We place this useful contrivance on all sizes of Mills, by which means we convert a Corn Mill into a Stock Feed Mill; but a few minutes work to put it on or take it off.

We manufacture portable Mills, single and doubled geared (best quality of French buts) to grind Wheat, Corn, and Stock Feeds, quality of French buts) to grind Wheat, Corn, and Stock Feeds, calculated for steam, water, or house power. These mills have been tun by steam and horse power in competition against the other make of Mills of our city, at our State Fairs, and have never failed to earry off the first premium—on one occasion was awarded a beautiful at ver medal. Our mills also took two first premiums as the best mills, at two Annual Fairs of our Mechanics' Institute.

Also—Portable Saw Mills, to be run by steam, water, or horse le, to be run by ste power. This Mil was exhibited in operation by horse power, at the Onio State Fair, 1850, when it was awarded a premium and

the Onio State Pair, 1850, when it was awarded a premium and splendid silver medal.

Also—Different kinds of portable horse powers, and steam engines. All our articles, for case of operation, simplicity, usefulness, and durability, are surpassed by none now in use.

All our articles are warranted as represented, or no sale, at our cost of transportation and the money refunded.

For a full description and test moneals of merit and usefulness, we refer those interested to tur pamphiet, to be had at our factory, where we take pleasure to explain each article. Orders respectfully solicited.
